

# A website is not magic.

It is a clear message, arranged on a page, with one next step.

**Codex Sites helps arrange these pieces into a first draft.**

# Codex Sites turns your answers into a first draft.

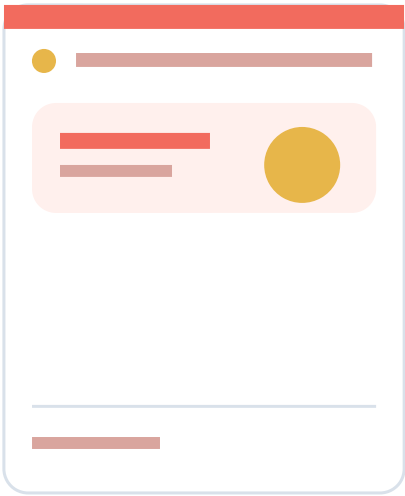

**No blank canvas. No code lesson. Start, look, then improve.**

# Good design is only five decisions.

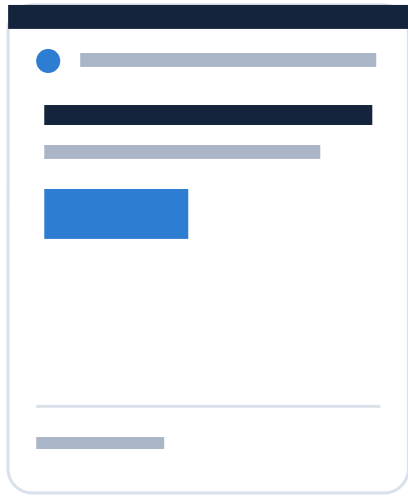

**You choose the direction. Sites handles the first arrangement.**

# Pick a direction — not a perfect design.

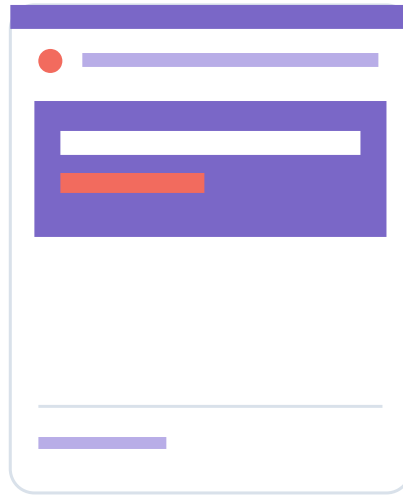

## WARM & PERSONAL

Friendly • Human

## CLEAN & PROFESSIONAL

Clear • Trusted

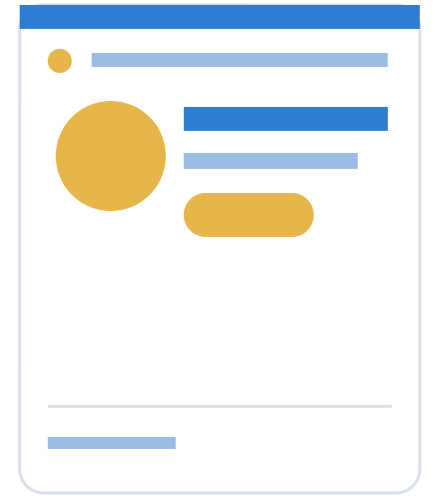

## BOLD & MODERN

Strong • Direct

## CALM & MINIMAL

Quiet • Spacious

## ENERGETIC & CREATIVE

Bright • Expressive

Not sure? Say “choose for me” and react to the preview.

# Today we build the site. The technical connections come later.

1

## TODAY

- Build the first version
- Look at the preview
- Ask for changes
- Save it privately

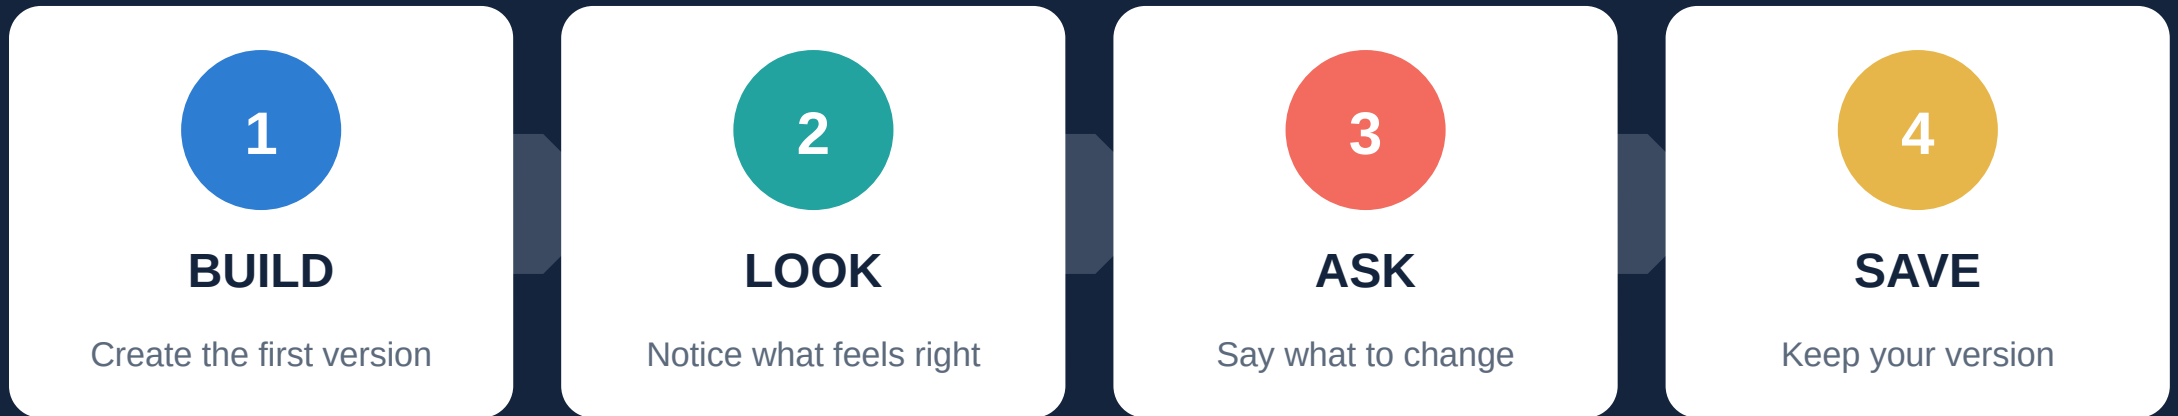

2

## LATER

- Publish when ready
- Connect a custom domain
- Point the DNS records
- Add other tools only if needed

DNS simply points your web address to your website. That can wait.

# Your first website only needs one loop.

**RECOGNIZABLE**

**EDITABLE**

**YOURS**

**That is a successful first website.**
